About the Book

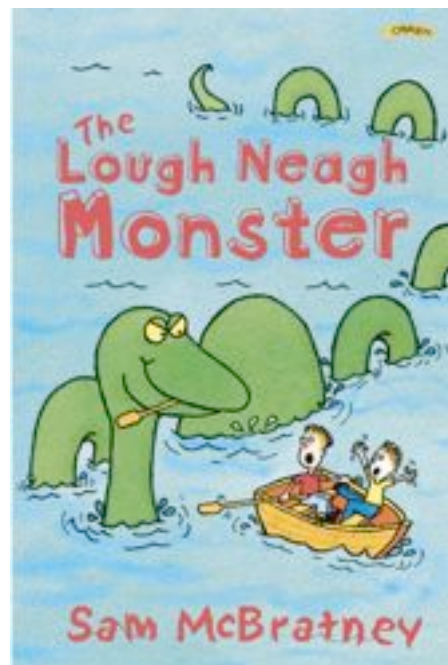

Everyone has heard of the Loch Ness Monster, but what about her Irish cousin Noblett, the Lough Neagh Monster?

Noblett's quiet life is thrown into chaos when Nessie pays a visit.

Nessie, whose idea of fun is to headbutt boats and frighten old-age pensioners, had left her Scottish home when her antics caught the interest of journalists and scientists. But the pupils of Ballymascullion School are not as easily outwitted, and Noblett finds himself protecting his cousin from their Ancient Reptile Trap and the dangerous yellow monsters as Nessie makes the most of her Irish holiday.
